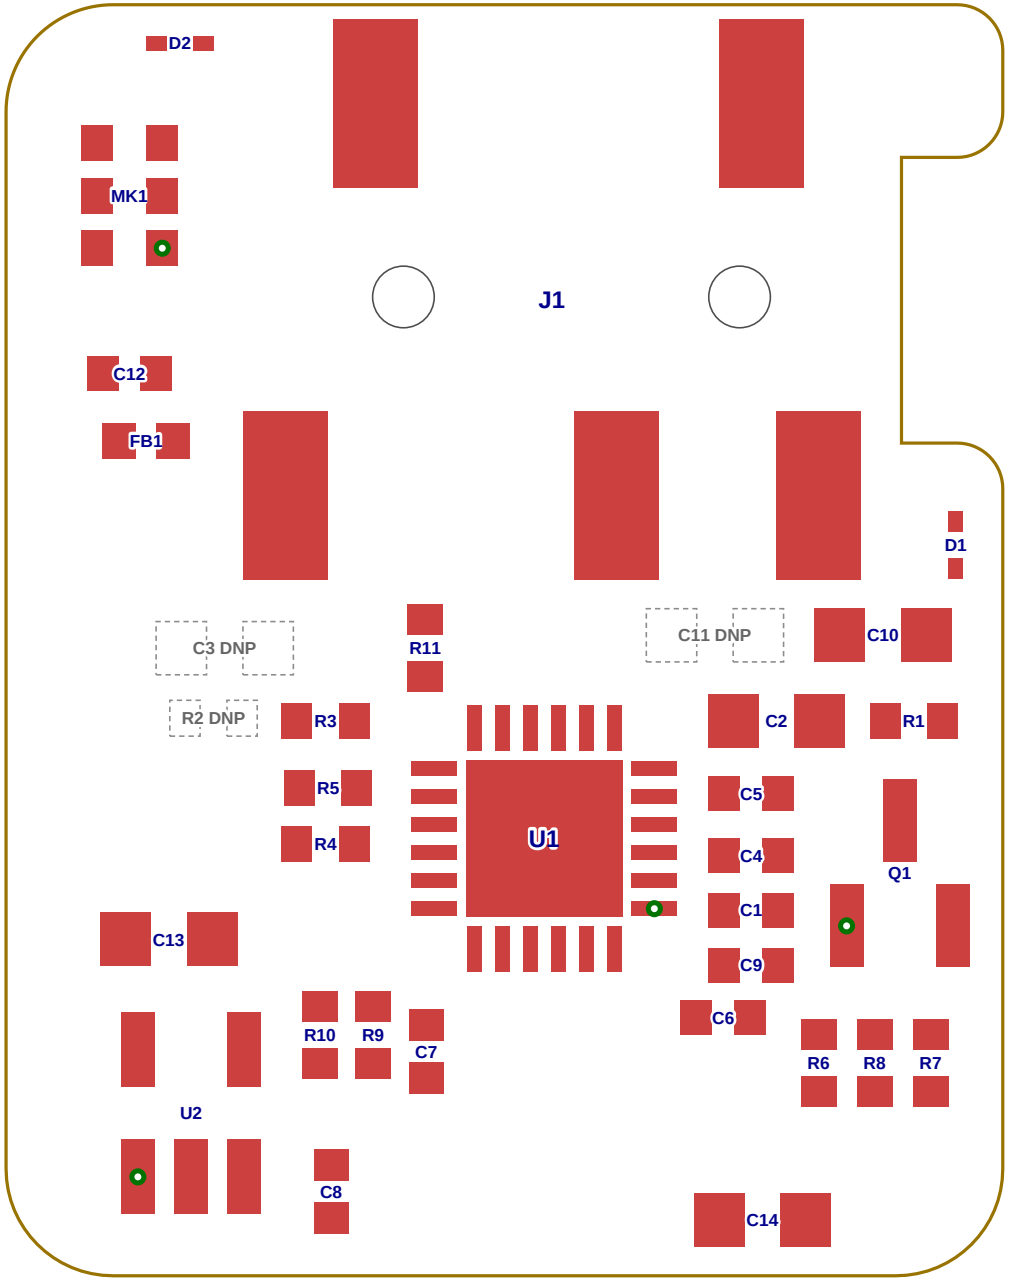
Assembly placement - TOP side

BirdNET mic HAT - source 0738ede - units mm, scale 7.4:1 - viewed from above



Legend

Filled red: fitted part pads on this side
Dashed grey: DNP footprint (do not fit)
Green ring: pin 1 of U1, U2, Q1, MK1, J3
Grey circles: NPTH jack locating holes

Fitted on top (30)

C1, C2, C4, C5, C6, C7, C8, C9, C10
C12, C13, C14, D1, D2, FB1, J1, MK1
Q1, R1, R3, R4, R5, R6, R7, R8, R9
R10, R11, U1, U2

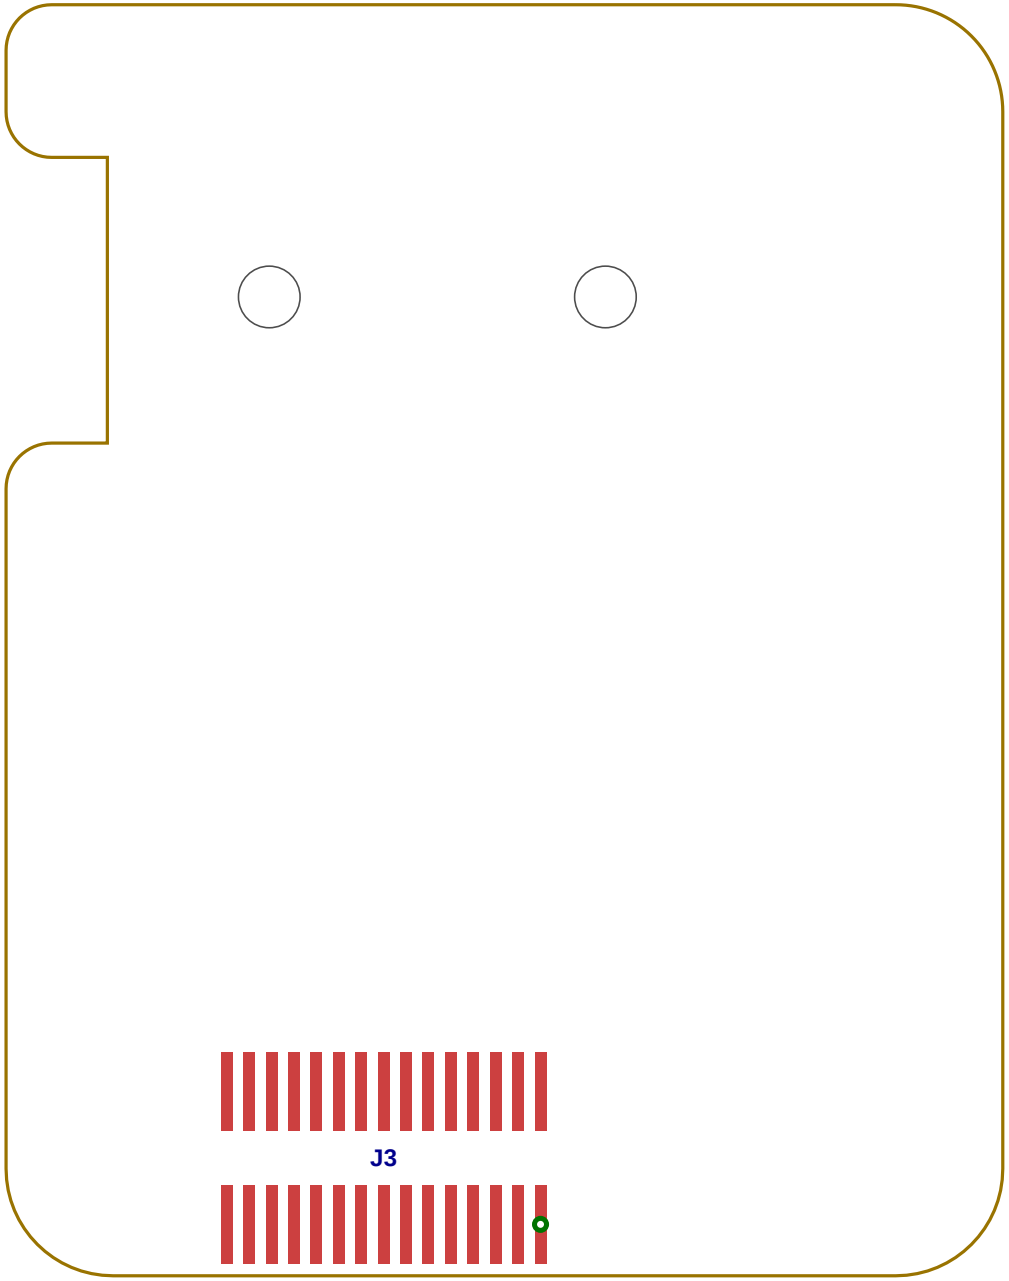
DNP on this side

C3, C11, R2 (mono build)

Reference designators are hidden on the PCB silkscreen; use this drawing with the BOM and CPL.
CPL rotations are native KiCad values: confirm every part in the JLCPCB placement preview before approval.

Assembly placement - BOTTOM side

BirdNET mic HAT - source 0738ede - units mm, scale 7.4:1 - viewed from BELOW (mirrored)



Legend

Filled red: fitted part pads on this side
Dashed grey: DNP footprint (do not fit)
Green ring: pin 1 of U1, U2, Q1, MK1, J3
Grey circles: NPTH jack locating holes

Fitted on bottom (1)

J3

Reference designators are hidden on the PCB silkscreen; use this drawing with the BOM and CPL.
CPL rotations are native KiCad values: confirm every part in the JLCPCB placement preview before approval.
